Profile

I am an aspiring software engineer skilled in Java and database management. My goal is to contribute effectively to organizational growth by leveraging my diverse set of software skills.

Education

- | | |
|--|----------------------|
| • Walchand Institute of Technology – B.Tech (EXTC) | CGPA: 9.59 (Present) |
| • Sangameshwar College, Solapur – XII (State Board) | 75.17% |
| • Indian Model School – X (State Board) | 94.4% |
-

Technical Skills

- **Languages:** C, Java, Python, HTML, CSS, JS
 - **Frameworks:** Flask, django
 - **Database:** MySQL
 - **Tools:** Tableau, Power Bi
 - **Soft Skills:** Leadership, Teamwork, Multilingual Communication
-

Projects

- **Smart Attendance System Using Face Recognition** – Built a wireless Smart Attendance System using Flask, OpenCV, and Raspberry Pi 4, delivering high facial recognition accuracy in real-time, contactless tracking with SQLite integration. Designed an intuitive web dashboard for analytics and automated reports, which reduces manual effort.
 - **Career Prediction Model** – Developed an interactive platform that recommends personalized career paths based on students' skills, interests, and iterative feedback. Implemented machine learning algorithms using Python and Scikit-learn enabling adaptive and multi-week guidance with career insights and data visualization.
-

Events

- **ISTE Program Coordinator:** Organized Yuva Darpan and annual prize distribution events.
 - **WITCHAR-2k25 Coordinator:** Organized Quizotronics event.
-

Certificates and Participations

- Participant – Meshmerize, Techfest IIT Bombay
 - Runner-up – Engineer's Day Aptitude Competition, WIT Solapur
-
